

# Specialty Products

## Fastener Seal Kit and Assemblies:

Bolts, nuts, fasteners and seals are often required to complete your assembly. Parker offers the value added services of providing design assistance and kitting for all of these components. Our convenient custom seal kits offer reduced inventory to OEMs and provides an easy one stop shop for aftermarket suppliers. Let us help you design your custom sealing solution and supply one easy to order fastener seal kit or assembly.

## 250 Series Lock-O-Seal

The 250 Series Lock-O-Seal is a two-piece combination seal comprised of a separately molded O-ring fitted within a surrounding metal washer. This series is designed for sealing two specific applications: (1) Straight tube fittings and bosses, and (2) NAS banjo style fittings and bosses. Contact your local Parker sales representative or the CSS Division for more information.

## Food, Beverage and FDA Related Applications

Parker fasteners and fitting seals are available in FDA conforming materials. A complete list of Parker's FDA conforming elastomers can be found in the Parker O-Ring Handbook (ORD 5700). It is important to note that formal FDA approvals are not given to fasteners and fitting seals. It is ultimately up to the user to determine if the product meets the requirements of the particular application. Contact your local Parker sales representative or the CSS Division for more information or technical literature regarding the use of fastener seals in food, beverage or FDA related industries.

## Custom Fastener and Fitting Seals

Parker designs and manufactures custom fastener and fitting seals for a wide range of industries and applications as listed below. Minimum order requirements and engineering charges may apply. Contact your local Parker sales representative or the CSS Division for more information.

- Automotive A/C connectors, drain plugs and more
- Aerospace fasteners and fittings with special material or quality requirements
- Special compounds for explosive decompression, chemical processing, and offshore drilling
- Banjo fittings, MS fittings, and custom fasteners
- Brass retainers for oxygen sealing applications
- Many more!
